Transforming EMS and Fire Education Delivery

Medic-CE is transforming EMS and Fire education delivery and putting you in control. With the Medic-CE innovative learning platform you can:

- 1. Use the platform to deliver your own content**, both live, instructor-led classes and your own self-paced courses, making your local training more accessible and entirely customized.
- 2. Choose from our library** of live, instructor-led and self-paced courses, built to the NCCP requirements and state level and NREMT-accepted to help your staff get their hours.
- 3. Build a hybrid solution** that gives you the best of both worlds. Add your own content and fill in the gaps with our curriculum.

The Medic-CE team is trained to work with agencies and departments of all sizes.

Transforming EMS and Fire Education Delivery with Innovative Platform Technology

The Medic-CE Vision

Medic-CE is the only fully integrated online platform designed to deliver the most up-to-date education, training, and information to your staff in both virtual classrooms and self-paced course delivery.

- **Go beyond recertification training.** Broaden your scope beyond education, connecting your staff to the most up-to-date training, policies, and courses required.
- **Connect through a dynamic training management system.** Reach both internal and external audiences through an enterprise solution designed for communication and collaboration.
- **Empower knowledge sharing.** Share information across your department for consistent training results and reduced administrative burdens and risk.

Choose the Solution Specific to Your Needs

Deliver Your Own VILT Courses

The innovative Medic-CE online learning platform puts you in control by providing a dynamic, online platform for your own virtual, instructor-led training (VILT).

- Live stream your content using your own instructors
- Harness powerful technology for tracking, training, and compliance
- Save time and money

Subscribe to Our Curriculum

The Medic-CE learning platform can also be used to provide access to content from the Medic-CE library of prebuilt state level and NREMT-accepted courses and programs. There are over 250 hours of content to choose from.

- Offer high quality curriculum—both live, instructor-led and self-paced
- Benefit from volume-based discounts
- Train with the confidence of curriculum that is nationally accredited by CAPCE and accepted by the National Registry and at the state level as F3 and F5 courses

Build a Hybrid Solution

The Medic-CE platform makes it easy to provide the right solution for your unique agency or department needs, and you can even build a hybrid solution that combines your content with ours.

- Offer your own content with live-streamed instructors and custom self-paced courses
- Fill in the gaps with prebuilt Medic-CE content
